Society of Robotic Surgery
2015 Annual Meeting

UROLOGY
February 19 – 22, 2015
Rosen Shingle Creek
Orlando, Florida
Welcome to the Society of Robotic Surgery  
2015 Annual Meeting

2015 Scientific Meeting Co-Chairs:

Eduardo Parra-Davila, MD, FACS, FASCRS  
Dr. Parra-Davila is the director of Minimally Invasive and Colorectal Surgery and director of Hernia and Abdominal Wall Reconstruction at Florida Hospital Celebration Health. He is board-certified in general surgery and colorectal surgery. He is highly experienced in treatment for complex hernia repair and minimally invasive colorectal.

Alex M. Mottrie, MD, PhD  
Dr. Mottrie is a urologist at the Onze Lieve Vrouwziekenhuis Clinic in Aalst, Belgium. His major urological interests are urological oncology and minimal invasive surgery. He has authored multiple scientific papers and organized several international congresses in these fields. Dr. Mottrie is the current president of SRS.

Internationally renowned surgeons will participate as faculty!

Don’t miss this opportunity to learn from the world’s leading robotics experts! Highlights include:

- Presentations by world-renowned leaders in robotic surgery
- Specialty breakout sessions for:
  - Cardiothoracic Surgery
  - Colorectal Surgery
  - General Surgery
  - Gynecology
  - Pediatric Surgery
  - Transoral Surgery
  - Urology
  - Allied Health

The SRS 2015 Annual Meeting will be the most comprehensive robotic symposium ever held featuring internationally renowned faculty who are dedicated experts in their fields of study. The meeting will feature step-by-step (how-to) techniques with in-depth commentary by the world’s leading robotic surgeons. This meeting is for everyone from surgeons new to robotic surgery to first assists, as well as advanced robotic surgeons who want to improve their techniques.

See the latest advancements in robotic surgery with minimally edited video sessions that are panel-narrated by leading faculty in the field with detailed procedural overviews. In addition, attendees of this two-day Urology Program will learn the latest advances in robotic surgery and have the opportunity to register for hands-on simulation courses.

2015 Conference Highlights:
- Tips & tricks in robotic urology
- Up-to-date scientific data on oncological and functional outcomes
- Optional robotic surgery simulation training basic course (page 7)
- What is new in robotics?
- What is the advantage of the da Vinci Xi in urological practice?

Join the Society of Robotic Surgery from February 19 to 22, 2015, at the Rosen Shingle Creek in Orlando, Florida, for the chance to network with the world’s leading robotic surgeons! Check the website for updates at www.srobotics.org.

UROLOGY COURSE DIRECTOR:  
Vipul R. Patel, MD, FACS

UROLOGY COURSE CO-CHAIRS:  
Alex Mottrie, MD, PhD; Thomas E. Ahlering, MD

PROGRAM UPDATE!  
Multidisciplinary Plenary Session  
Sunday, February 22, 2015  
7:00 a.m. – 12:00 p.m.

New Innovations in Robotic Technology  
Chair: Vipul R. Patel, MD, FACS  
Please visit www.srobotics.org for details.

SRS 2015 Annual Meeting
Master Class Program
Urology Program Schedule

Urology Course Co-Chairs: Alex Mottrie, MD, PhD; Thomas E. Ahlering, MD
Internationally renowned surgeons will participate as faculty!
Programming is subject to change.

SATURDAY, FEBRUARY 21, 2015 KIDNEY SURGERY

6:55 a.m. – 7:00 a.m. Welcome
Vipul R. Patel, MD, FACS
SRS 2015 Program Co-Chair
Florida Hospital Celebration Health
Celebration, FL

Alex Mottrie, MD, PhD
SRS President and Program Co-Chair
Onze-Lieve-Vrou위ziekenhuis
Aalst, Belgium

7:00 a.m. – 7:20 a.m. State-of-the-Art Lecture: Robotic Renal Surgery
Sam B. Bhayani, MD
Washington University School of Medicine
St. Louis, MO

7:20 a.m. – 8:20 a.m. Video Session: Full Unedited Cases of Robotic Partial Nephrectomy
Alex Mottrie, MD, PhD
Onze-Lieve-Vrou위ziekenhuis
Aalst, Belgium

8:20 a.m. – 11:50 a.m. Edited Challenging Cases

8:20 a.m. – 8:40 a.m. Posterior Tumor
James R. Porter, MD
Swedish Urology Group
Seattle, WA

8:40 a.m. – 9:00 a.m. Fully Intrarenal Tumor
James R. Porter, MD
Swedish Urology Group
Seattle, WA

9:00 a.m. – 9:20 a.m. Hilar Tumor
Sam B. Bhayani, MD
Washington University School of Medicine
St. Louis, MO

9:20 a.m. – 9:40 a.m. Break

9:40 a.m. – 10:00 a.m. Complications of Partial Nephrectomy
Sam B. Bhayani, MD
Washington University School of Medicine
St. Louis, MO

10:00 a.m. – 10:20 a.m. What Do We Know About the Importance of WIT?
Raymond J. Leveillee, MD, FRCS-G
University of Miami Miller School of Medicine
Miami, FL

10:20 a.m. – 10:40 a.m. Single Site Technique in Robotic Renal Surgery
Jihad Kaouk, MD
Cleveland Clinic Main Campus
Cleveland, OH

10:40 a.m. – 11:00 a.m. Technical Innovations in RAPN
Jihad Kaouk, MD
Cleveland Clinic Main Campus
Cleveland, OH

11:00 a.m. – 11:20 a.m. Nephrectomy and Nephroureterectomy
Ashok K. Hemal, MD
Wake Forest University
Winston-Salem, NC

11:20 a.m. – 11:40 a.m. Pyeloplasty
Raymond J. Leveillee, MD, FRCS-G
University of Miami Miller School of Medicine
Miami, FL

11:40 a.m. – 11:50 a.m. Adrenalectomy
Ashok K. Hemal, MD
Wake Forest University
Winston Salem, NC

11:50 a.m. – 12:45 p.m. Lunch

12:45 p.m. – 4:00 p.m. Afternoon Sessions: RARC & Intracorporeal Diversion

12:45 p.m. – 1:30 p.m. Male RARC: What is Important? Video-Based Reporting, Tips & Tricks
Peter Wiklund, MD
Karolinska Institutet
Stockholm, Sweden

1:30 p.m. – 2:00 p.m. Female RARC: Tips & Tricks
Ashok K. Hemal, MD
Wake Forest University
Winston-Salem, NC

2:00 p.m. – 2:30 p.m. Break
2:30 p.m. – 3:00 p.m. Intracorporeal Ileal Conduit: Step by Step
Alex Mottrie, MD, PhD
Onze-Lieve-Vrouwziekenhuis
Aalst, Belgium

3:00 p.m. – 3:30 p.m. Intracorporeal Neobladder: Tips & Tricks
Peter Wiklund, MD
Karolinska Institutet
Stockholm, Sweden

3:30 p.m. – 4:00 p.m. Round Table: Outcome in RARC & Intracorporeal Diversion: The Evidence
Moderator: Peter Wiklund, MD
Karolinska Institutet
Stockholm, Sweden
Panelists: Thomas E. Ahlering, MD
University of California, Irvine
Orange, CA
Ashok K. Hemal, MD
Wake Forest University
Winston-Salem, NC
Alex Mottrie, MD, PhD
Onze-Lieve-Vrouwziekenhuis
Aalst, Belgium

4:00 p.m. – 5:00 p.m. Scientific Session: Best Videos

5:00 p.m. Adjourn

Registration/Information Desk Hours will be posted online when they become available. Please check the SRS website for updates.

Exhibit Hall Hours will be posted online when they become available. Please check the SRS website for updates.
Robotic Surgery Simulation Training: Basic

This two-hour skills course will offer novice and intermediate robotic surgeons the opportunity to learn about the basic operations of the robotic system through virtual reality simulation. Using the latest Mimic 3.1 dV trainer platform, this entirely hands-on training session will guide learners through a basic training curriculum that exposes the user to basic operational controls.

Audience

This course is designed for novice and intermediate robotic surgeons who would like to gain experience in the use of the robotic system. This course may also be ideal for intermediate or infrequent users of the robotic system who would like to measure their current skill level with expert users.

Results

This course will not measure proficiency, but novice learners will be given pre- and post-test comparative scores to confirm that learning has occurred. Intermediate learners will also receive a comprehensive MScore detailed report, which will show learners where there is potential for improvement in their performance when compared to experts.

12:45 p.m. – 2:45 p.m. Thursday, February 19, 2015 or 10:00 a.m. – 12:00 p.m. Friday, February 20, 2015
Cost: $225.00
Minimum – 5; Maximum – 10. Register online at www.srobotics.org!

Educational Needs

Virtual reality simulation offers a method to safely acquire robotic surgical skills and proficiency through the use of technology. Training in a virtual reality simulator allows the user to safely learn how to utilize the technology and become familiar with the controls and features of the actual medical device. Through the use of standardized metrics, the simulator is capable of evaluating the surgeon’s robotic surgical skill performance and targeting specific areas for improvement.

Educational Objectives

At the conclusion of this course, attendees should be able to:
1. Translate the five core robotic surgical skills in a virtual reality environment (Endowrist Manipulation; Camera & Clutching Control; Energy Application & Dissection; Needle Control & Driving; Suturing & Knot Tying).
2. Demonstrate the proper location and operation of the various robotic system controls (Master Grip Controls, Camera Controls, Clutch Controls, Energy Controls and Scaling Controls).
3. Demonstrate the proper ergonomic position, function, calibration and use of the virtual reality simulator.
4. Analyze your overall performance and areas for improvement.

Agenda

Course Welcome & dV-Trainer (Simulator) Overview

Simulation Laboratory Exercises

Warm-Up Exercises:
1. Pick & Place
2. Camera Targeting 1

Pre-Test Exercises:
1. Peg Board 1
2. Camera Targeting 2
3. Thread the Rings 1

Core Exercises:
1. Peg Board 2 >Skill = Endowrist Manipulation
2. Match Board 2 >Skill = Endowrist Manipulation
3. Energy Switch 1 >Skill = Energy & Dissection
4. Energy Dissection 1 >Skill = Energy & Dissection
5. Ring Walk 2 >Skill = Endowrist Manipulation & Camera Navigation
6. Match Board 3 >Skill = Endowrist Manipulation & 3rd Arm Control
7. Suture Sponge 1 >Skill = Needle Placement & Driving
8. Knot the Ring 2 >Skill = Knot Tying
9. Interrupted Suture 1 >Skill = Suture & Knot Tying

Post-Test Exercises:
1. Peg Board 1
2. Camera Targeting 2
3. Thread the Rings 1

Games (if time allows):
1. Stacking Challenge
2. Vitruvian Operation

Course Evaluation & Closing Remarks

Training programs on the use of the dV-Trainer® simulator are provided by Mimic Medical Education and Development LLC, a Florida limited liability company dba MimicMED™. Although simulators are gaining widespread acceptance and in most cases should enhance a physician’s readiness to perform robotic surgery under the direction of a fully credentialed attending surgeon, MimicMed’s training programs pertain only to the use of the simulators and therefore do not of themselves constitute either specific medical training, nor the credentialing of a physician for use of the da Vinci® Surgical System or any other robotic surgical system. The determination of a physician’s readiness to perform robotic surgery is solely the responsibility of the hospital, surgical center or medical facility where the procedure takes place, as to which neither MimicMED nor its affiliates has any role. The skill competency of a particular physician and any procedure-specific training needs are matters that are determined solely by each treating hospital, surgical center or medical facility on its own behalf.
Urology Educational Needs & Objectives/Accreditation

EDUCATIONAL NEEDS
The goal for this Urology course is to have novice surgeons learn technical skills surrounding the treatment of prostate, kidney and bladder cancer from those surgeons with exemplary experience. Since skill and experience are proven mechanisms and key to success for robotic surgery, these skills and knowledge are necessary. It is our hope that this course will both increase surgeons’ abilities to treat urologic cancer, as well as better address diagnoses for patients presenting with urologic cancer.

EDUCATIONAL OBJECTIVES
• Evaluate and analyze the surgical techniques and methodology behind complex robotic urologic cancer surgeries such as prostatectomy, cystectomy and partial nephrectomy.
• Identify and debate emerging issues in prostate cancer screening and policy.
• Describe the key complications and outline the intra-operative and post-operative management related to robotic surgery procedures using video-based learning, live surgery and expert panel discussion.
• Identify the current and upcoming protocols for regaining potency and continence following robotic prostatectomy and cystectomy.
• Explain a clinical update on treating, diagnosing and managing complications of localized, regionally advanced and metastatic urinary cancer.
• Explain the surgical techniques and methodology behind complex robotic cancer surgeries, including partial nephrectomy, robotic prostatectomy and nephroureterectomy.
• Illustrate upcoming new technologies in the field of robotic surgery, including new robotic and imaging technologies.

ACCREDITATION
Please check the SRS website (www.srobotics.org) for accreditation updates.

Hotel Information

Rosen Shingle Creek
9939 Universal Blvd.
Orlando, Florida 32819
Main: (407) 996-9939
Fax: (407) 996-9938
Website: www.rosenshinglecreek.com

Room Rate: $229.00
Hotel Deadline: January 26, 2015
Reservations: Call (866) 996-6338

Hotel Deadline
The deadline to receive the SRS $229.00 group rate is January 26, 2015. SRS encourages you to make your reservation early, as the hotel and discount block may sell out before this date. After this date, reservations will be accepted based on availability and higher rates may apply.

Reservations
Attendees are responsible for making their reservations by calling the hotel at (866) 996-6338. Please reference the SRS 2015 Annual Meeting to receive the discounted rate.

Hotel Deposit & Cancellation Policy
A deposit equal to one night’s stay is required to hold a reservation. These deposits are fully refundable if the hotel is notified five days prior to arrival and a cancellation number is obtained.

Travel and Transportation

Airport Information
Orlando International Airport (MCO) is approximately 10 miles from Rosen Shingle Creek or 14 minutes by car.

Taxi Cab Services
Several taxi companies operate at the Orlando International Airport:
Ace Metro/Luxury Cab: (407) 855-1111
Diamond Cab Company: (407) 523-3333
Quick Cab: (407) 447-1444
Star Taxi: (407) 857-9999
Town & Country Transport: (407) 828-3035
Yellow / City Cab: (407) 422-2222

Taxi rates for a one-way transfer to the hotel cost approximately $40.00.

Rental Car Information
Avis Rent-A-Car is the official rental car company for the SRS 2015 Annual Meeting. For reservations, please call (800) 331-1600, and use the code “J901055” to receive the discounted rates.

Parking
Self-parking is $10.00 at the resort; $21.00 for overnight valet parking.
Registration Fees are subject to change. To lock in these rates, register now!

Are you a member of SRS?
- [ ] Yes
- [ ] No

To become a member and receive discounted prices, visit the SRS website at www.srobotics.org. In order to receive discounted prices, application for SRS membership must be processed and approved before registering.

Two Woodfield Lake | 1100 E Woodfield Road Suite 350 | Schaumburg, IL 60173

### Registration Information

**Registration Fee Includes:**

- Entrance to scientific sessions
- Breakfasts
- One ticket to the Welcome Reception
- Program Materials

SRS has a green initiative! So instead of cutting down trees to make paper program books, we are cutting down on the use of paper and going electronic, which also cuts costs for the society as a whole. A link to the electronic version of the program book will be available on the website one week before the meeting.

**Registration Cancellation & Refund Policy**

Registration refund requests must be submitted in writing to the SRS Executive Office by 1/26/2015. All refund requests will be subject to a $100 processing fee. No refunds will be made after 1/26/2015.

**Special Needs**

For accommodations on the basis of disability or special dietary needs, please call (847) 517-7225.

**Questions**

Please feel free to contact the SRS Executive Office by:

Phone: (847) 517-7225 | Fax: (847) 517-7229
